

Thank you for the opportunity to express myself regarding this "Telephone Privacy Action". When the Indiana Plan went into effect, the number of "Telemarketing Calls" decreased dramatically. Finally we were able to have some "Peace & Quiet"!!! Indiana's Law is working....I can see why the "Telemarketers" are putting pressure on you to re-open their opportunity to further their business interests. I don't like that. The program to "block those calls" is working just fine in Indiana; please leave it that way!

Thank you again for the opportunity to voice my opinion.
God Bless America
